FORK LIFT TRUCK OPERATOR & INSTRUCTOR TRAINING

WHY TRAIN ?

Each year there are in the region of 7,000 reportable injuries involving lift trucks. These injuries, some fatal create suffering for those involved and their dependants. Even an accident not involving injury may result in costly damage to trucks, buildings, fittings and the goods being handled.

Lift truck accidents are frequently associated with lack of suitable operator training. Such training is an essential first step to reducing damage and injury to key personnel.

A Code of Practice has been agreed by the Health and Safety Commission following widespread consultation which came into effect in April 1989 and is designed to help employers meet their legal obligations under the Health and Safety at Work Act 1974 in ensuring that all operators have the necessary training. This code was amended and enlarged in 1999. (HSE ACOP L117)

No person should be employed to operate a lift truck unless he or she has satisfactorily completed basic training and approved testing as described in the code.

The Group Training Association has developed and recently upgraded its own purpose designed Fork Lift Truck Training Centre.

We are an Accredited Training Organisation approved by the award body R.T.I.T.B. to conduct Fork Lift Truck training courses for operatives, on completion a practical competence test will be conducted by a qualified Fork Lift Truck examiner and a Fork Lift Truck Competence Certificate awarded to successful candidates. These certificates are held on a database.

We are members of the Forklift Truck Association - Safe Users Group.

INSTRUCTOR TRAINING

We are also fully accredited to run R.T.I.T.B. Fork Lift Instructor course for companies wishing to have their own in house trainer or for individuals wishing to work on a self employed basis.

We offer: 10 day Basic Instructor
5 day Re-Registration
5 day Assimilation

Instructor courses run four times per year. We have an excellent achievement rate on all courses.

Operator Training:- As an Approved Training Organisation we can offer Fork Lift Truck Courses as follows:-

- *5 day Basic for Novices.*
- *2½ day for Existing Uncertified Operators.*
- *2 day conversions from one truck type to another*
- *1 day for Refresher or conversion for experienced Certified Operators.*

At our Training Centre we operate the following type of trucks

*Industrial Counter Balance
High Capacity Reach Truck
JCB Teletruck Telescopic Handler
Manitou Rough Terrain Truck
Pedestrian Operated Pallet Truck*

Training and testing can be conducted on all types of truck at companies own premises (if suitable training facilities exist.)
